29 November 15.00–18.00 Panel discussions № 3 . Statelessness resulting from conflicts, forced population movements and migration affecting minorities: main challenges and possible solutions

Report « Violation of the rights of peaceful people in Ukraine »

Доклад «Нарушение прав мирных людей в Украине»

Dear Mr. Moderator and participants of today's session.

I am the president of the German committee of the international platform "Global Rights of Peaceful People" - Oleg Musyka.

So the circumstances were that after an armed coup in Ukraine, I left the country. Since May 2017, I

am a political emigrant and a stateless person; this status has been granted to me by the state of Germany. Therefore, I, not from the pages of newspapers, know what it is to be an immigrant, I know how difficult it is to obtain this status, and it is even harder to be left without a homeland, at home, to break off relations with family and friends.

This is a tragedy. There are more than 3 million such refugees from Ukraine. In Germany there is evidence from the parliament that from the end of 2014 to the beginning of 2018, about 7,000 applications from citizens of Ukraine were submitted to the German migration service. Only 9 people have a positive response. One of them is me. With such an aggressive Nazi policy of the Ukrainian authorities, carrying out the genocide of their own people, this stream of Russian-speaking statelessness to Europe will grow.

Eliminate the root cause of the aggressive illegal power of Ukraine, which, taking into account all international laws, came to rule through an armed coup. We need transparent democratic elections. Without saber-rattling and the introduction of fake martial law in region where the electorate does not support Mr. Poroshenko at all.

And further. Today, a girl spoke from the rum of Ukraine who spoke about crimes against their people. I will add that absolutely all these crimes were committed by right-wing nationalists, directly supported by the Ukrainian authorities. And this is called the "New Ukrainian Order." So, according to the Prosecutor General Lutsenko, if someone from the Nazis received a rebuff, this rum would have been recognized as a criminal committing aggression against STATE.

And this is up to 15 years in prison. They are worse than the Nazis and before the elections they establish the order of the complete dictatorship of the primitive patriots, equating any criticism of the authorities with the state treason. Consider ALL the people of Ukraine are forced to flee the country and stateless.

I turn to RECOMMENDATIONS:

- 1) Indicate to the authorities of Ukraine about the inadmissibility of limiting the constitutional rights to participate in the elections of parties and opposition candidates.**
- 2) Stop the persecution and language-based violence of the Russian-speaking citizens of Ukraine.**
- 3) Pay attention to the physical destruction of Roma in Ukraine.**
- 4) Eliminate the legal chaos and the support of the General Prosecutor's Office of the Nazi assault groups of pseudo-patriots.**
