

My name is Qusay Doraghi I am from the Ahwazi Arab community in Iran. Today I represent the Solidarity Party of Al-Ahwaz.

For the record I would like to clarify a point, I represent a party which believes in Peaceful struggle, Equality, Secularism, Freedom of believe and Women's right.

We condemn any kind of violence all over the world and we never supported any terrorism groups/actions!

It is not acceptable for NGOs that have received accreditation to be able to take part in this Forum to be accused of being TERRORIST by the Iranian State representations!

This Forum is supposed to be a safe space for all minorities around the world to express themselves, as providing state by the Chair women.

I have never engaged to any arm group or military activities. We are a minority in our homes, we do not wish to be a minority in the United Nations as well. The world, the United Nations needs to hear the MINORITY VOICES...

THANK YOU!
