

Thank you,

I am pleased to be with you here to convey to you the suffering of the Yazidi people:

1. We ask of you, as a human right, to intervene immediately and not marginalise the Yazidis in Europe in terms of language and nationality, because in some countries they consider us Kurds, and this is a disaster for us.
2. We ask of you to work with the European Union to exempt Yazidi refugees from deportation from Europe to Iraq because they were subjected to 74 massacres and are still under threat.
3. We oppose the Sinjar Agreement between the Kurdistan Regional Government and Baghdad because the withdrawal of the Kurdish Peshmerga in August 2014 was the cause of the Yazidi massacre.
4. The issue of peaceful coexistence in Iraqi Kurdistan is nothing but a lie, and the evidence is the hate speeches of the imams in Kurdish mosques, the rape of the six-year-old girl Akhin, her murder, the cutting out of her father's tongue, her torture in front of her father's eyes, and the murder of her father in front of her eyes in the Zakho district, Iraqi Kurdistan.
5. We ask that you rescue the thousands of Yazidis kidnapped by the terrorist organization ISIS, especially those in Al-Hol camp in Syria.
6. We ask that you resolve the issue of displacement because the conditions for Yazidis in the displacement camps in northern Iraq are tragic, and the evidence is the burning of thousands of tents.
