

Hazar Tahid Abadi (Journalist Republic of Iran)

Hello everyone. I'm Azhar Taharabadi, journalist and human rights of Iran. I think we have gone the wrong way. My country is under communication and media sanctions imposed by some Western countries and Iran cannot really communicate in some fields. We talk about the right of the minority to freely communicate. Which they want. For example, the Western countries have banned Iran using some application and some other ? . Thank you for time.
